## Power-wheelchair & Scooter Hoist

100kg (220lb) and 150kg (330lb)

These Hoists can be used to lift Power-Chairs and Scooters into the back of Estate cars, M.P.V type vehicles and 4x4s.

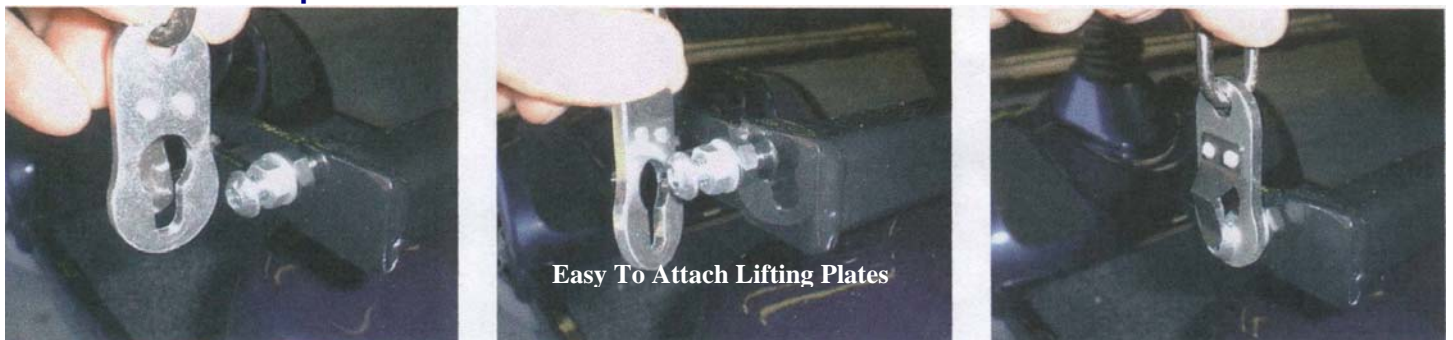

Power in/out is an option, providing full control when turning heavy wheelchairs in and out of the storage area.

- Radio control is also available as an extra on all hoists with power in/out option
- The hoist jib assembly can be easily removed from the back of the vehicle when extra space is required.

- All mounting frames are installed neatly to the side of the vehicle
- Powered directly from the vehicles battery and protected by fuse and overload switches
- Specially designed plates enables easy attachment to the lifting bracket
- All metal work is powder coated black

- New vehicle eligible to Vat Exemption when hoist fitted prior to registration.
